Ricardo Hurla

Lead iOS Developer

👤 Profile

I am a seasoned Lead iOS developer with extensive experience crafting and managing iOS applications. I have had the privilege of working with a variety of organisations throughout my career, from agile startups to well-established organisations, always delivering my best to help them achieve their business objectives and contributing to a variety of teams and stakeholders.

📄 Employment History

Lead iOS Developer at Moneybox, London
January 2021 - Present

- Demonstrated great leadership qualities to direct and assist teams while leading other developers and squads.
- Initiated improvements in unit testing practices, which significantly increased the percentage of code coverage as well as its reliability.
- Mentored and advised less-experienced developers, promoting their growth and development as professionals.
- Contributed significantly to the user experience and functionality of the application on redesign and payment method projects.
- Actively participated in project planning, working with stakeholders and cross-functional teams from the start to finish to ensure alignment with business goals.

Senior iOS Developer at WorldRemit, London
March 2020 - January 2021

- Contributed to the development of the iOS application as part of an iOS Chapter.
- Created an iOS Widget for currency conversion.
- Maintained and refactored legacy code.
- Participated on a redesign of different areas of the app, contributing with cross-functional teams.
- Helped to defined development guidelines within the chapter.

iOS Developer at Tide, London
January 2019 - March 2020

- Responsible for the development of the iOS application within the squad.
- Maintained and refactored legacy code.
- Contributed to the app redesign.
